#### Notice to Mail Subscribers.

Subscribers are supplied with a notice of the time their subscription will expire two days in advance of the time; and again with a second notice on the day the last copy paid for is sent. This will enable all persons to keep the run of their expenses, and to renew in time not to miss an issue of the paper.

#### Bramlette's Inaugural Address.

A part of this document is sound in theory.

The State of rebellion did not lose their status in the Union. Their harmonious and peaceful relations only were disturbed. By rebellion they invoked the military to supersede the civil rule during the time of the rebellion. Revolt did not disorganize and rend them. Territorial status, for protection attained, but still, in the words of Mr. Bramlette, "nothing is changed, everything remains. It is the successful attempt which revolutionizes, changes, destroys. It follows, therefore, that no terms can define or express the rebellion except those in French and Latin, they are To demand anything more would be to change sides with the rebellion—to make war upon the Constitution at the moment the rebels became willing to submit to it.

He elaborates this point at some length, and grows almost belligerent, or at least Copperheadish:

"But will not the dominant powers require terms other than success? Will they not require a restoration of their relations, to adopt either immediate or gradual emancipation? These are grave questions, and suggestive of a dangerous and wicked experiment. We trust to plighted word and constitutional faith, but disregard of honor and the principles of humanity can force such an issue, and we will not invite a civil by battling it into being. The contractors pressing upon us claim immediate efforts. When others come we shall meet them. 'Sufficient unto the day is the evil thereof.'

He will not invite an evil by battling it into being. When it comes we shall meet it. Sufficient unto the day is the evil thereof. It is sometimes more than sufficient. He need not battle this evil into existence; it is now threatened by the party that has the physical power to do what they threaten.

The objection to Bramlette's mode of treating this subject is that it is only theory. The States have only to resume their places in the Union—need of restoration or reconstruction. All well—in theory; but how are States to resume their places practically, admitting that the masses of their people desire to do so? Take Louisiana for example. The day for the election of a Legislature is approaching. There are no judges of election and no power to appoint any. Suppose this difficulty gotten over, there are the military, and without their consent no election can be held. There is no organized tribunal to speak for the people, to say if they desire an election at all; and it is a question whether they do or not. How is any movement to be made? Who is authorized to make it? It is obvious that the consent of the President must be had; for the consent of the military, under his command, must be had. He can say that the State is still in rebellion; that he does not know that the people intend to resume their former status; and therefore, he will not allow a State organization.

The people of a State may be entitled to resume their status, but they are unorganized, and the power to organize is not in their hands. Let us see how the practical working will be. The President will grant permission by a military order. He will permit loyal men to be candidates, and loyal men to vote. The military will supply tests of qualification, such as were prescribed in many places in this State. Thus we shall have an organization—a Legislature that is understood will call a convention of loyal men elected by loyal voters. If any one questions the validity of confiscation acts, military arrests, or the military order emancipating slaves, he will not be loyal, and will be elected to such a convention. This convention, of course, emancipates all the slaves. Bramlette & Co. can't object to this. They can't allow disloyal men to vote or hold office. That is the doctrine. It is all right to proclaim martial law, and enforce it; and fix the qualification of voters, regardless of constitutional requirements. They have done that in this State themselves; and can't, without self-sacrifice, denounce the practice elsewhere. The Administration may agree to Mr. Bramlette's theory. It will not demand conditions of a State, but only loyal men can vote and hold office. These loyal men will be the State, and they will do what the power that made them desires should be done, and Bramlette & Co. are bound to sustain the process. They hold power by the same means that will fix such conditions of restoration to the Union as the Abolitionists want; and the theory will be preserved. There are inherent difficulties in this matter. A Legislature that would not obey the Constitution of the United States should not be allowed; a convention that would reaffirm the ordinance of Secession, could not be allowed. They must obey the Constitution and laws of the United States. What are those laws? There is the confiscation bill, which hangs or imprisons all who have been rebels, or given aid and comfort, frees all their slaves, and confiscates all their property; and there is the proclamation, which the Administration considers law; and it has the men and the money to enforce it. Voters and candidates are exposed to this law; for there are not many in Louisiana, or any in the seceded States, that have not been involved in the rebellion. If the scattering few exceptions only are to have the power of the State, it will be an odious oligarchy that will not live long in peace, unless they are supported by Federal bayonets. They cannot be considered the State. They are not the masses—and will the rest swear to obey laws that strip them of life, liberty and property? It is easy to propose a correct theory, and advocate it as well as Bramlette does; but who is to carry it out? That is in the hands of the President entirely. Mr. Bramlette is bound to supply him the means without qualification. The President is responsible for the fate of them. With men and money given unconditionally, he can take the responsibility. We know, well enough, what the President intends to do. He makes no secret of his purpose; and if ample means are furnished, without any proviso, will his family be safe? what has he said just to please Mr. Bramlette?

The Governor puts forward these evils as meditated by the Abolitionists. He is hard on them. It is what they are going to do, that he denounces. With what has been done he has no fault to find, except on one subject, and on that he concedes all that the Abolitionists can ask. So much for the theoretical part of the message, in speaking of evils that may be. There's another aspect of the document that is in perfect contrast with the platform on which he was elected. There are two sides to the inaugural. We shall look at the other to morrow. The organs are already disputing about what it means. There is good reason for the dispute. There are two sides to a question, and there are two to this document.

The Chicago Tribune says that 60,000 soldiers from Illinois will be at home to vote at the next election.

LOUISVILLE, KENTUCKY: THURSDAY MORNING, SEPTEMBER 3, 1863.

NUMBER 42.

**French Intervention.**

Attention is now directed toward the operations of the French in Mexico. The surmises on both sides of the water are that they are anything but of a friendly character to this country, not only as regards the result of the occupation by a foreign power, but also the real intentions of the Emperor. It is not believed that he desires to be on terms of friendship with this country, even if we were willing to allow him to pursue his schemes in the Mexican Republic. The Paris correspondent of the New York Tribune says:

Louis Napoleon has gone too deep into this Mexican business to withdraw from it. Present appearances are that he does not mean to let any new Polish business interfere with its prosecution. The greatest bar to its prosecution is the opposition of the Emperor. That rebellion has hitherto steadily encouraged by all moral and physical efforts in his power to furnish the more ready will be leaders to go out and arm for his cause. Hardly pressed as it now seems to our hopes to be, there is no discoverable sign or intimation that he considers it to be on its last legs. His own popularity is perhaps never greater than it is now in France and Italy. The progress of the Mexican Republic is the most rapid in history. The military success of the Mexican popular army and its reflection of popularity upon him, were so marked and manly as to disperse the crowd of soldiers he commanded into small bands of rebels. The progress of the rebellion is the most rapid in history. # Baily Democrat.

PRINTED AND PUBLISHED BY HARNEY, HUGHES & CO. OFFICE—South side Green Street, two doors below the Customhouse.

W. E. HUGHES, State Printer. THURSDAY, SEPT. 3, 1863.

## CITY NEWS.

### JOB PRINTING.

The JOB DEPARTMENT in the Democrat Office is now ready for all kinds of printing. Bills, Circulars, Cards, Posters, &c., printed at the shortest possible notice, and at prices to suit the times.

**Good Second Hand Printing Material for Sale.**

The proprietors of the Democrat having become the purchasers of the Louisville Courier & Cc., have a large amount of printing material in *duplicate*, which they will sell at a bargain: one Hoe's single cylinder power press—bed \$450, in good running order; two small sized job presses—a Well's Jobber—platen 14x18, and a Hoe card press—both steam arrangement or otherwise.

A large number of fonts of job and card type; a number of fonts of wood type—good poster letters—several sizes.

Also, cases of various sizes, suitable for newspaper or book forms.

Bargains will be given. Terms cash.

**COUNTERFEIT POSTAGE CURRENCY.**—On Tuesday night officers Deering and Curry arrested a young man by the name of John Carr for passing counterfeit postage currency of the denomination of fifty-cent pieces. His case was called before the Police Court yesterday morning and continued until to-day. We learn that a large amount of this money—some four or five hundred dollars—was passed in the city on Tuesday and during Tuesday night. The city is flooded with it, and our citizens should be on the look out. It is thought that there are parties in this city engaged in its manufacture, and that they have agents to circulate it, and in this way large amounts of it are put about. Some time since a man was arrested in the upper portion of the city for manufacturing this currency and held over to answer at the Circuit Court. Since that time but little has been offered until during the past week.

**HORSES THIEVES.**—During the past few nights several persons residing in this county have had their most valuable horses stolen from them, and for some time back scarcely a night has passed that one or more horses have not been stolen. There is no doubt but that there is in this neighborhood a band of horse thieves who are thoroughly organized, and who travel about all night, stealing horses wherever they can find them, and sending them to this city to be disposed of by persons supposed to be their confederates. This gang is supposed to be connected with a band in Indiana, and the two operate together. Some effort should be made to rid our city and county of these desperados, and we hope that they may soon be brought to justice.

**NARROW ESCAPE.**—On Tuesday two newsboys got into a skiff at the river for the purpose of taking a ride, and getting too far out, were caught in the current and carried down the falls with lightning rapidity, until coming in contact with some hay stuck on the rocks, where they were stopped, which saved them from being dashed to pieces over the rocks. They got out upon the hay, and remained until yesterday morning, when they were rescued from their perilous position by a fisherman, whose attention was attracted to them by their cries. It is almost a miracle that they were not carried over the falls and both drowned.

**DESERTER ARRESTED.**—Yesterday officer Ryan succeeded in arresting in the upper portion of the city a deserter from "Loomis' battery," who gave his name as John Lowery, but whose real name is Charles Smith. This man formerly belonged to the Sixth Ohio, and deserting that joined Loomis' battery. He is said to be a dangerous character, and at the time he was enlisted he had in his possession a lot of counterfeit money, bonds and a lot of false dies.

**PROMENADE CONCERT AND BALL.**—The Post Band, under the leadership of Mr. Wm. Rowden, is to give a concert and ball at Masonic Temple before long, which will not be a grand affair. The Post Band, with its silver instruments, has won golden opinions from all lovers of music. The ball will be somewhat of the military character, we presume, which is always popular with the ladies. It will be advertised in due time.

**"A" difficulty arose yesterday on Market street between a man by the name of Thomas Mays and a Dutch woman, in regard to the children of one of the party stealing grapes. Some words passed between them when Mays struck the woman on the head with a brick, inflicting a painful wound. He was arrested and placed in jail, and will have a hearing before Judge Johnston this morning.**

**PROMOTED.**—Major Llewellyn Gwynne, of the Fourth Kentucky cavalry, has been promoted to the Lieutenant Colonelcy of that regiment. We do not know of any young officer more worthy of the honor conferred. He is said to be the best cavalry officer in this department, and has won the confidence and admiration of our Generals by his skill and bravery, as well as by his genial manners and highly cultivated attainments.

**DISTRESSING ACCIDENT.**—Yesterday evening a little boy, about three years of age, son of Mr. Marsh, living on Main street, New Albany, Indiana, fell from the second story window of his residence to the pavement below, and was so badly hurt that but slight hopes are entertained for his recovery.

**RUNAWAY.**—Yesterday a pair of horses, attached to a spring wagon, took flight at the corner of Floyd and Market streets and ran out Floyd street at a frightful speed until reaching Grey street, where, making a sudden turn, the wagon was upset and completely demolished. Fortunately no one was hurt.

**WOOD'S THEATER.**—This place of amusement was again crowded last night to witness the performances of the Holman troupe. The Marie de Miss Sallie was rendered in a style that we have never seen surpassed.

**"A"** In the police court yesterday morning but a small amount of business was disposed of. A few persons were examined on the charge of drunkenness and disorderly conduct and required to give bail.

**"B"** About one hundred and fifty prisoners were brought to this city yesterday on the Nashville train and confined in the military prison.

**"C"** A number of persons were arrested and confined in jail yesterday upon the charge of drunkenness and disorderly conduct.

**"D"** The Nashville train arrived on time yesterday. There was nothing of interest along the line.

**"E"** The thermometer at noon yesterday stood at 82 in the shade—the highest it has been for nearly two weeks.

**"F"** Wm. Hester, messenger of Adams' Express Company, has our thanks for favors.

**"G"** Both Boards of the City Council will be in session at the usual hour to-night.

**PARTICULARS OF THE KILLING OF CAPTAIN MURPHY BY COLONEL SPAULDING AT LEBANON ON MONDAY.**—We have already mentioned the fact in our paper that on Monday evening last Captain Murphy, of the Eighth Kentucky cavalry, was killed at Lebanon by Colonel Spaulding, of the Thirty-seventh Kentucky infantry. Lieutenant Colonel Waitt arrived in our city yesterday, and furnishes the following particulars in regard to the affair: The two camps are situated about two and a half miles apart, and some time since the Eighth Kentucky issued an order that no member of the Thirty-seventh should pass through their camp in going to or returning from the city. Colonel Spaulding had just returned from town with a number of rebel prisoners, and was within the limits of his own camp, when he was approached by Capt. Murphy in a very insulting manner, who immediately commenced abusing the Colonel, stating that he (the Colonel) had allowed his men to greatly abuse the members of the Eighth Kentucky. Capt. Murphy then commenced cursing Spaulding and drew his pistol. The Colonel, who was unarmed at the time, told the Captain to shoot if he chose to do so. A Lieutenant, who was with the Captain at the time, caught hold of the bridle of his horse and endeavored to persuade the Captain to leave, but he kept on abusing Spaulding, when the Colonel ordered a guard of five to arrest the Captain, who, as soon as he saw the guard approaching, fired at Colonel Spaulding, the shot just grazing his left temple. The Colonel, who in the meantime had procured a pistol, fired at Murphy, the ball passing through his heart, and causing instant death. At the time the Colonel fired, the guard also fired, two of which shots took effect before the Captain f ell from his horse.

The Colonel was placed under arrest, and an order was sent to this city for a court of inquiry, which was sent down yesterday. There is no doubt that the Colonel will be honorably acquitted. At the time of the unfortunate occurrence Captain Murphy was under the influence of liquor.

**THE FROST.**—The frost, which occurred on Saturday and Sunday nights last, appears to have been more general and destructive than was at first supposed. During the year we have had frost every month, which phenomenon does not occur often. We see in all our exchanges notices of the extensive damage done by these frosts. In Indiana, Illinois and Ohio the damage has been very large. A dispatch to the Chicago Tribune from Champaign county, Illinois, gives a very dark, but we trust exaggerated, account of the destruction in that vicinity. The writer says the crops are swept down by thousands of acres, that at least half of the corn is cast down, utterly ruined, and some of the most advanced is damaged. Vines of all kinds, including every tender plant, are killed. Nearly all the grapes are ruined, and the tobacco has turned black and is almost spoiled. The cotton, which had been so extensively planted, is a total loss.

**Hospital Report.**

The following is a report of poor, sick and patients admitted and prescribed for in the Louisville Marine Hospital during the month of August, 1863:

Remaining July 31..... 54

Admitted during the month..... 116

Total accommodated..... 54

Of these there were discharged..... 54

Died..... 8

Total died and discharged..... 62

Remaining August 31..... 54

Dispensary patients prescribed for..... 20

D. A. DONNE, Superintendent.

**THE FROST.**—The tobacco has been injured more or less in certain localities by the late frost, while some cases it has sustained no injury whatever. We hear of considerable injury in Breckinridge and Meade counties and in Indiana. The full extent of the injury cannot be known yet for several days. Men engaged in the tobacco trade, and who have extensive intercourse with tobacco growers, differ widely as to the effect it will have upon the coming crop, but the general opinion seems to be that the crop, notwithstanding the frost, will far exceed the last in quantity.
